Aesthetic Looks Combined with Powerful Performance

Whenever people plan to deck up their house and plan the interiors of their living room and other rooms, they tend to opt for a fan that not just performs well, but also looks good. This is because fans not only give you comfort but also add to the glamour of your rooms. The Havells Nicola fan is a combination of aesthetic looks and a powerful performance. The high efficiency motor of this Havells fan along with the 68W power makes this fan a smooth performer that delivers great cooling at a lesser voltage.

Exceptional Colour Variations and Robust Built

Havells is a leading brand in electronic home appliances and their legacy for optimum quality and innovative design is something which is well known. The 3 blade ceiling fan offers uniform air circulation and is available in different variations such as 600mm, 900mm, 1200mm and 1400mm sweeps for larger rooms. These fans have an exceptional colour combination that matches well with designer trims and the most exclusively done interiors. These Havells Nicola fans have a robust built due to the sturdy die cast covers and strong aluminium blades.
